

zokki

One geometric **Z** — the hero of the brand — explored six ways, plus wordmark, lockups, in-context placements and a recommended system.

App-icon directions

02

One Z, six treatments — by-the-book → distinctive. Recommended: A, then E or C.

A · Monogram

Evolves your current icon. Gradient tile, crisp Z. Safest, most scalable.

E · Data-line

Z's diagonal becomes a prediction sparkline. Speaks to the core product.

C · Silks

Diagonal jockey-silk sashes, Z knocked out. Most racing-native.

D · Finish line

Lower bar is a checkered finish line. Sporty, instantly "race".

B · Gallop

Leaning Z with motion lines. Energetic, light feel on mint.

F · Horseshoe

Lucky horseshoe badge cradling the Z. Heritage / club feel.

Wordmark

03

Set in Urbanist (your brand face). Lowercase reads softest and most modern.

Lockups

04

Mark + wordmark, horizontal and stacked.

horizontal · monogram

horizontal · data mark

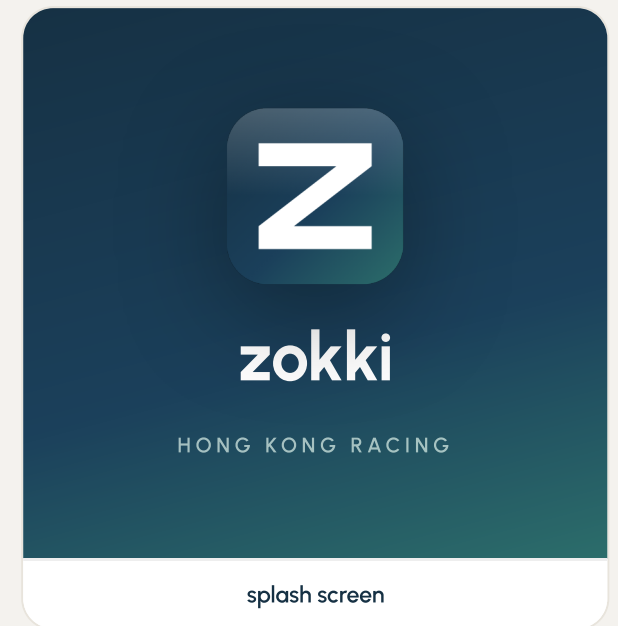

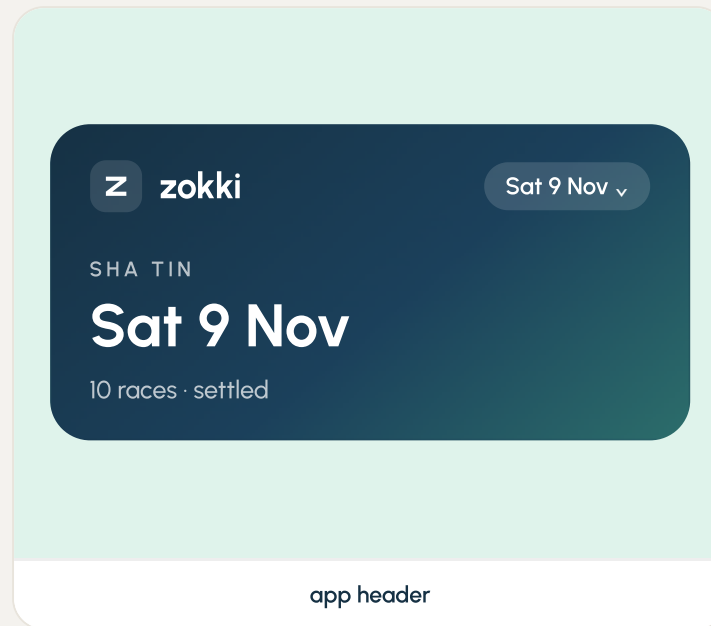

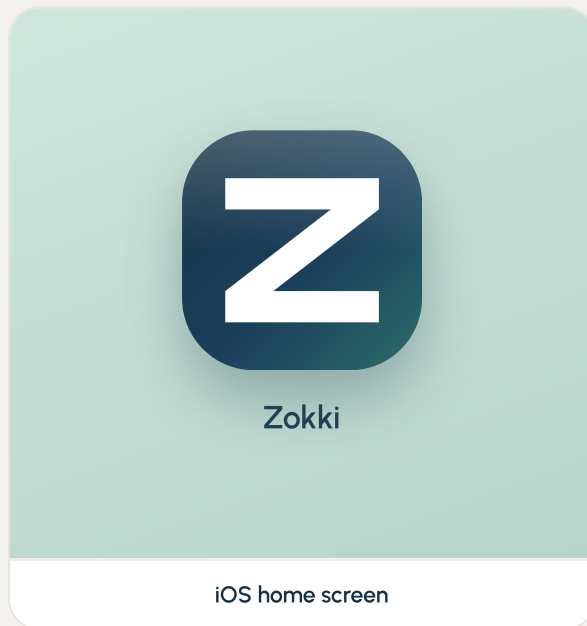

stacked

In context

05

How the mark behaves in real placements.

Recommended system — Monogram

06

The mark must survive every surface. Same Z across five required forms.
